Tuning Into Teens

Emotionally Intelligent Parenting

A FREE six session parenting program for parents of teens aged 10-17 years

Would you like to learn how to:

- Communicate with your teen more effectively?
- Be better at understanding your teen?
- Help your teen learn to manage their emotions?
- Help prevent behaviour problems in your teen?
- Teach your teen to deal with conflict?

Tuning in to Teens shows you how to help your teen develop *emotional intelligence*.

Adolescents with higher emotional intelligence:

- Are more aware, assertive and strong in situations of peer pressure
- Have greater success with making friends and are more able to manage conflict with peers
- Are more able to cope when upset or angry
- Have fewer mental health and substance abuse difficulties
- Have greater career success
- Have more stable and satisfying relationships as adults

Emotional intelligence may be a better predictor of academic and career success than IQ!
